Requesting a 930am arrival.
9:45AM -10:15AM Henry Darwin, EPA Acting Deputy Administrator (invited)
Hi Henry,
On behalf of the Environment, Health, Safety & Security Roundtable (EHS2), we would like to invite you to speak at our next Roundtable scheduled for September 17, from 9:45 – 10:15, to be held at our office space at the Willard Office Building, located at 1455 Pennsylvania Ave. EHS2 members include, among others, Fedex Ground, McWane, EEI, Fiat Chrysler, Suez, Denso, Davey, and American Zinc. Attached is a draft agenda more background on EHS2 and its members.
Our members are keenly interested in engaging constructively with EPA on environmental protection and "what's around the corner" involving EPA developments. The group is particularly interested in your efforts to improve the agency's overall processes and functioning, and would welcome any insights and thoughts that you could share. There will be no press, to encourage open discussion with you on opportunities. Past guest speakers at EHS2 have included, among others, Susan Bodine, Larry Starfield, and Jeff Wood.
I look forward to hearing from you. If that time slot does not work for you, we would be more than happy to accommodate your schedule that day.
All the best,
Brent

At our last Council meeting, we discussed whether the Administrative Procedures Act (APA) is triggered by Permitting Council decisions to add new FAST-41 Sectors. The Permitting Council's Executive Director followed up with the General Counsels from OMB and GSA, who

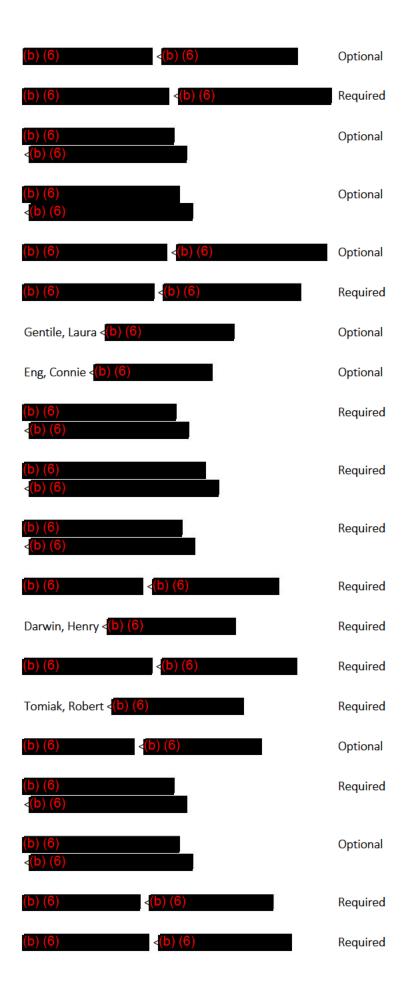

recommended that the Permitting Council proceed with a notice and comment period before voting on whether to add mining as a new FAST-41 sector. The Executive Director is planning to follow this recommendation and proceed with the notice and comment period. The September call will discuss the legal reasoning behind this recommendation, implications for future Council actions, and the scope of the request for comments (see section ii of attached April 2018 memo). The OMB and GSA General Counsels will join the call.

Note: PCA's Government Affairs Coordinator, Erin Morris, will meet Mr.

Darwin in the lobby of NAM on the 7th Floor.

We're very excited that Mr. Darwin is coming to speak to PCA's Environment & Energy Committee on October 4 from 12:30-1 PM. Attached is the current agenda for the meeting. As you will see, during the meeting, we will be discussing issues before EPA including the Portland Cement NESHAP RTR, NAAQS, Waters of the U.S. Rule, Climate Change, and reducing regulatory barriers to use of alternative fuels among others. We would be interested in hearing about Mr. Darwin's agenda as the Acting Deputy Administrator. Here is a list of potential issues that Mr. Darwin can discuss:

^{*} Regulatory reform initiatives and implementation of President Trump's

Executive Order to repeal 2 regulations for every 1 that is issued

- * Current approach to guidance v. rulemaking
- * Recordkeeping and reporting reform
- * Cost-Benefit Analysis Reform
- * Science Transparency Reform

We would love to hear from Mr. Darwin on any of the above issues and insights on the key issues that we are discussing in our agenda. We are happy to provide any more information that Mr. Darwin needs to prepare for the meeting.

We look forward to seeing him at 12:30 at NAM (733 10th St. NW Suite 700) in the Global Room. If he needs to get in touch with me that day, please have him my cell, (b) (c(b) (6) Thanks.

Internal Meeting/Briefing Request Form for Deputy Associate Administrator and Chief of Operations

Henry Darwin

Today's Date: 9/25/18

Requesting Office: OCFO-OPAA

Title of the Meeting: Performance Module: Demonstration and Status Update

Purpose: Provide a demonstration of the module and a status update on performance data management capability.

Role of the ADA /COO: Gain understanding of how the capability of the module, along with the Performance Dashboard, can be used to manage performance data and support ELMS.

Background: OCFO initiated the Performance Module (part of the Budget Formulation System) to bring together performance-related information from several systems, and to support agency planning, reporting, and accountability. Though the module is still under development, key

performance functionality is complete. The agency is using the module to report performance results, including the FY 2018 annual performance report, negotiate FY 2019 commitments, and develop the FY 2020 budget and performance plan. The Performance Dashboard, once designed and developed, will draw data from the module. The dashboard will allow users to monitor the status of agency progress toward mission results and use data visualization to support decision-making.

The Office of Small and Disadvantaged Business Utilization (OSDBU) will be hosting the Associate Deputy Administrator's meeting with members of the small business community on November 6 from 10am until 12 noon. This meeting between EPA's Associate Deputy Administrator, EPA senior managers, small businesses and national trade associations representing small businesses, has been held annually since 2002 and provides an opportunity for open and frank communication. See attached document for additional information.

For this coming meeting, OSDBU has sent an electronic notice to a group of small businesses and small business national trade associations to solicit key environmental topics of interest (due date Oct 9). As soon as OSDBU receives the topics, OSDBU staff will work with the appropriate offices to obtain corresponding fact sheets, if necessary.

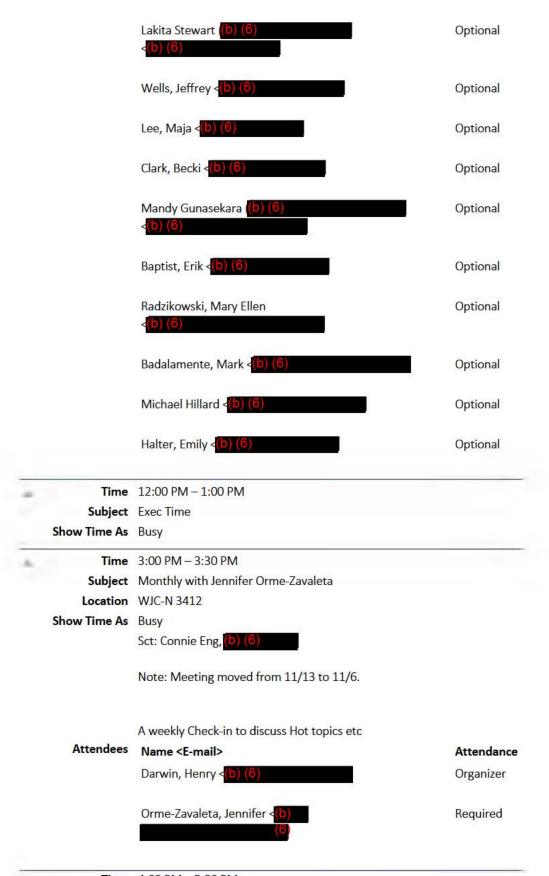

A future internal pre-brief will be scheduled for all internal participants. Should you have any questions after reading the background document, please do not hesitate to contact the Agency's Small Business

All -

I wanted to share some materials for our meeting on Monday. I have attached our November Report, the Revised A3, and the revised Best Practices document we have been discussing. The agenda for Monday will include OCSPP and OLEM talking about their visual management

boards that we did not get to during our last meeting. In addition, I will report out on my meeting with Henry and provide updates on our November numbers.

In addition, below I have included an article about work that OECA is doing around enforcement related requests for information and that OW is doing on CWA 308 requests. I had not heard about these initiatives, but think there may be some transferable lessons learned. I am hoping to have both OW and OECA speak at a future meeting. Until then, this is one article, but there have been others.

Thanks again for your continued participation. See you Monday.

Best, Nena

EPA Updates Information Collection Policies

11/21/2018

Contact Information:

EPA Press Office (b) (6) <mailto (b) (6)

WASHINGTON — The U.S. Environmental Protect Agency's (EPA) Office of Water and Office of Enforcement and Compliance Assurance have each issued a memorandum clarifying the processes each office will use for collecting information from the regulated community. Through these updates, EPA has committed to engaging with the regulated community, working to reduce unnecessary burden, and ensuring that the agency's own internal processes are clear and consistent.

"EPA is changing the way we do business," said EPA Office of Water Assistant Administrator David Ross. "One of my top priorities is to enhance the way we work with all of our stakeholders, including the regulated community, to generate more effective environmental management. The updates we are making today will help ensure that our internal processes support the exchange of information and the development of common sense and cost-effective regulations that protect our nation's waters."

"Information collection is an important tool to assist our efforts to improve compliance with environmental laws," said EPA Office of

Enforcement and Compliance Assurance Assistant Administrator Susan Bodine. "This memo captures best practices that will help us collect information consistently and efficiently, while providing recipients with clarity and reduced costs."

The Office of Water's memorandum updates the process for requesting information under Section 308 of the Clean Water Act. The memorandum provides guidelines for narrowly defining the information the agency is requesting. It updates the senior management approval process for initiating the information collection request process. It also puts an emphasis on engaging with the regulated community early in the process so that information can be exchanged in a clear and concise way, with the goal of reducing the need for formal information request letters.

The Office of Enforcement and Compliance Assurance memorandum focuses on the use of information requests for all compliance and enforcement related activities including Section 114 of the Clean Air Act and Section 3007 of the Resource Conservation and Recovery Act, as well as Section 308 of the Clean Water Act. It does not address information requests for developing regulations. The memo includes best practices on using the most efficient methods for obtaining information for compliance and enforcement, including gathering information informally; providing clarity to recipients on requests and the process to respond; and reducing transaction costs for both the recipients and the government.

Through both memoranda, EPA is working to reduce the burdens the agency's information collection request processes pose on the agency and the regulated community, while ensuring that the agency continues to receive the information it needs to protect public health and the environment.

All federal agencies will be closed Wednesday in honor of President Bush and his state funeral will be held at the National Cathedral in Washington, D.C.

Since our EELC meeting falls on Wednesday, the other EPA senior leaders on the EELC and I will not be able to participate.

Based on EELC Chairs' availability, we are rescheduling this call to this Friday, December 7th, from 1:00-2:00 PM ET. The agenda and meeting materials are attached to this invite.

Background: The Analysis and Results Tool (ART) is an Excel-based program that pulls data points from each of the EVS main themes, such as employee engagement, intrinsic work experience and global satisfaction. The tool organizes the survey results based on those themes by agency, subcomponent and office, and it shows the change in responses for a specific item over the years. ART--developed by NIH--is freely shared with other agencies, gives managers a quick picture of employee engagement over the past year, and can be used to kick start conversations about the results and ways to improve them in future.

Good Morning Everyone,

There has been a change in plans and today's meeting has been cancelled. Instead of a brainstorming session as a way to identify issues that may be preventing you from making progress on your projects we have decided to use a survey, which you will be receiving later today.

Please feel free to contact me if you have any questions or concerns.

Thanks,

Karen

Subject MOU signing with National FFA Elected Officers

Location Alm Room

Show Time As Busy

Please join if you are able as the Acting Admin can no longer join National FFA for the first time due to a new obligation at the White House. During this meeting, we thought the present program office leadership (or Tate if you can't make it) could give the FFA student officers an overview of what they do as it pertains to ag at the agency. Henry will be signing a formal MOU with National FFA towards the end.

Run of Show: Tate will lead and introduce program office heads in attendance. Each program should designate one point person to give a 2-3 min overview of what they do at the agency/ how it relates to Ag.

Attendees (6 Student National Officers + 4 National FFA DC Staff):

Students

- * Luke O'Leary, National President, California
- * Layni LeBlanc, National Secretary, Louisiana
- * Shea Booster, National Western Region VP, Oregon
- * Jordan Stowe, National Southern Region VP, Alabama
- * Ridge Hughbanks, National Central Region VP, Oklahoma
- * Adrian Schunk, National Eastern Region VP, Michigan

National FFA Staff

- * Riley Pagett, National FFA (from Oklahoma, worked for Sen. Lankford and House Ag)
- * Jordan Henry, National FFA
- * Karen Huchison, National FFA (possible)
- * Jason Martin, National FFA (possible)

Background

Future Farmers of America" was founded by a group of young farmers in 1928. (In 1988, the name was changed to the National FFA Organization.) Their mission was to prepare future generations for the challenges of feeding a growing population. National FFA is a national youth organization of more than 670,000 student members as part of local National FFA chapters in all 50 states, Puerto Rico, the U.S. Virgin Islands, and Washington, D.C. They have a very complex state and local officer electoral structure.

Talking Points:

- * EPA & National FFA will sign a first-time MOU (Draft for your review is in your binder)
- * This is a first-time nonbinding agreement to enhance cooperation between the EPA and FFA
- * This MOU provides an opportunity to attract, educate, inspire and prepare students for careers and opportunities within today's various environmental fields
- * Next steps- EPA regional ag counselors along with HQ are developing a framework to help with added collaboration between EPA regional offices and FFA state associations and local FFA chapters
- * EPA Environmental Education Grants and Youth & Teacher Awards Programs—There are no funds obligated in the MOU to fund FFA projects, but your team has been trying to expand the traditional applicant pool for our EE programs to non-traditional audiences.
- * EPA's has been trying to expand its reach into rural America. FFA can help us with this.

77 West Jackson Blvd, Chicago, IL 60604

Transportation:

February 19 arrival date:

we recommend that Henry take the CTA Blue Line train from O'Hare Airport to the Jackson stop.

Then he walks above ground to the R5 office at 77 West Jackson Blvd, Chicago, IL 60604.

This recommendation is based on the potential traffic at 8:30 am coming into downtown Chicago.

February 20 departure date:

We think it's OK for Henry to take an Uber or taxi from the R5 Office to O'Hare Airport if he leaves in the 2:00 to 2:30 pm time frame.

Building Access:

Henry's EPA ID badge was previously activated to work at the R5 lobby turnstiles.

Morgan can still meet Henry in the lobby upon arrival, and requests that Henry please email or call him when he is on his way from O'Hare $\,$

Lunch Menu:

Corner Bakery. Prior to the visit, Morgan is requesting that Henry reviews the menu to make a selection,

		and then bring \$15 cash again for payment.

Location 3412 WJC-N
Show Time As Tentative
Connie,

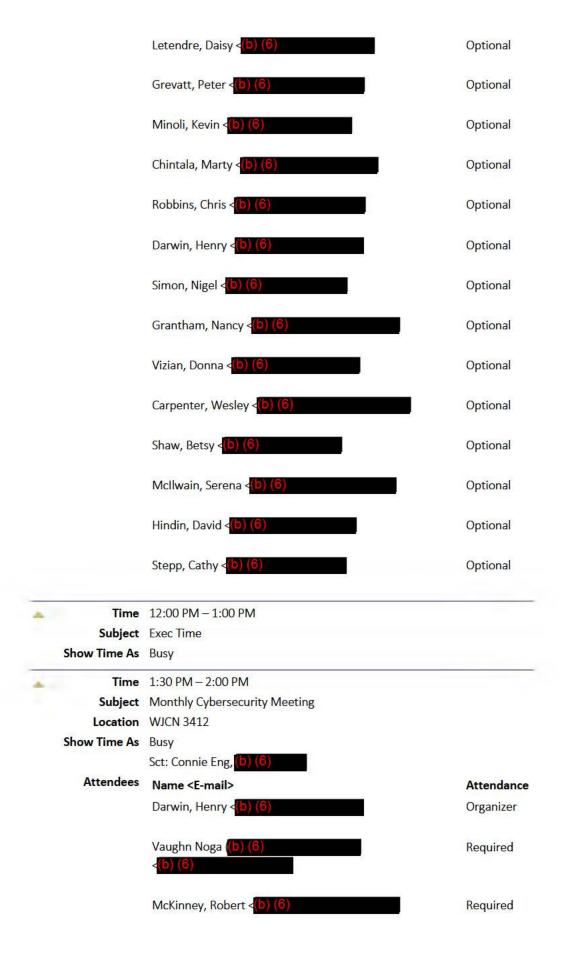

I hope you're doing well!

Holly is leading several senior agency leaders in a Kaizen project to create margin in our budget. One of the proposals the group supports is exploring ways to standardize Superfund billing—a task currently handled differently region by region.

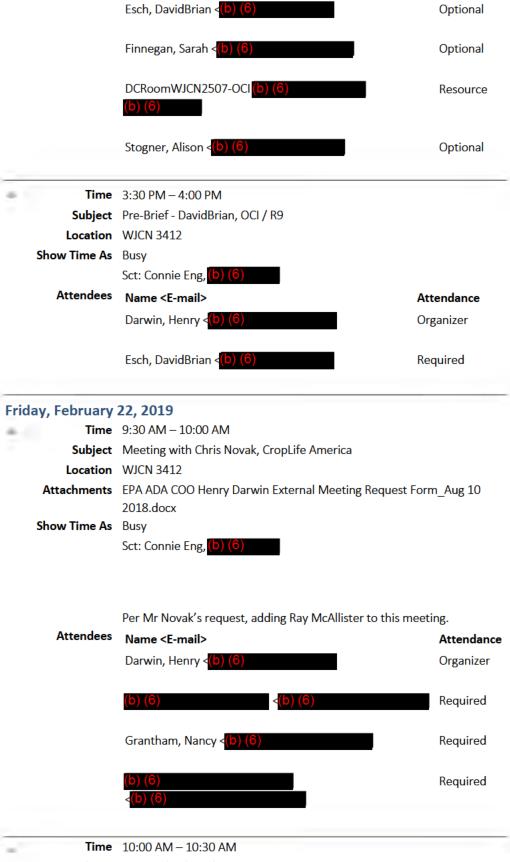

Is Henry available for a 30 minute meeting sometime next week for the group to raise this before moving forward? For our purposes, it makes no difference if it's Monday vs. Friday, if that helps with scheduling.

2019 EPA African American History Month Observance

On Tuesday, February 26, 2019, from 10:30 a.m. EST to 11:30 am EST, the EPA will hold an observance event in honor of African American History Month. Please mark your calendars and plan to join us for this event!

The theme of the EPA's observance is "Black Migrations" tracking the continuous movement of blacks from the American South to the industrialized North and beyond. This theme focuses not only on the literal migration from the south to the north, but on the changes that have taken place with the emergence of African American leaders across all professional sectors. The event will feature the following panelists discussing the theme:

Milton Brown, MD, PhD - Director of the Inova Center for Drug Discovery and Development and Deputy Director for Drug Discovery for the Inova Schar Cancer Institute. Dr. Brown is a physician scientist who has expertise in the design, synthesis and evaluation of new drugs and is one of only a handful of physician scientists in the United States who holds a PhD. in synthetic chemistry and a MD. Sixteen patent disclosures have been filed on his work.

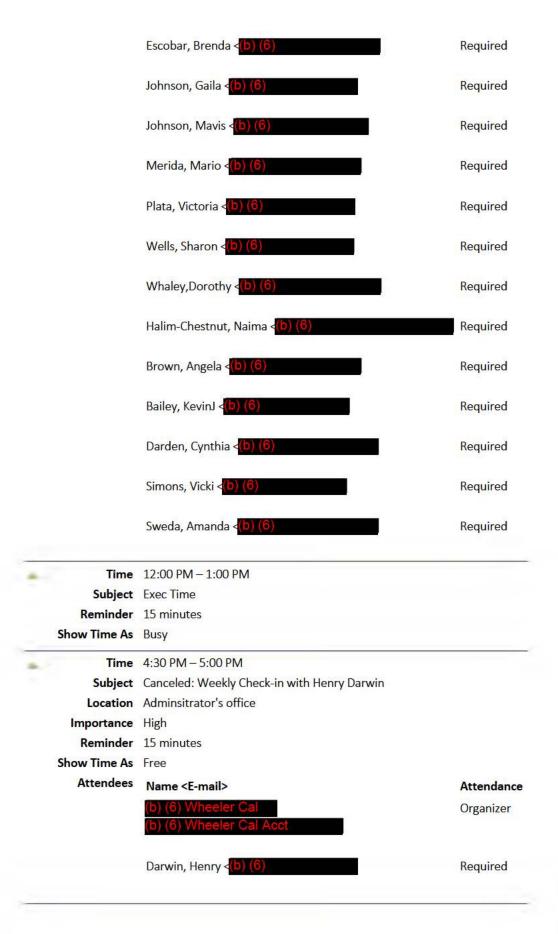

Judge Leslye M. Fraser (Retired) – Judge Fraser received her bachelor and master of science degrees in chemical engineering from the Massachusetts Institute of Technology http://web.mit.edu/ (MIT), and a Juris Doctor degree, Order of the Coif, from the University of California at Los Angeles School of Law http://www.law.ucla.edu/ . Judge Fraser was appointed an Environmental Appeals Judge for the EPA in 2012. Prior to joining the EPA, Judge Fraser was a research engineer and manager at TRW Space and Technology Group for nine years, then practiced environmental and labor law at a leading international law firm, Gibson Dunn. Judge Fraser holds a U.S. patent for a material she coinvented for spacecraft hydraulic systems.

Jonathan Holifield – Executive Director, White House Initiative on Historically Black Colleges and Universities. Prior to being appointed by President Trump to lead the White House Initiative on Historically Black Colleges and Universities, Mr. Holifield had 20 years of multidisciplinary experience in business and government. Mr. Holifield co-founded ScaleUp Partners, a consulting firm that has provided services to economic development and education organizations and institutions, local and state governments and national membership associations. He is a national speaker and author of the book, The Future Economy and Inclusive Competitiveness®: How Demographic Trends and Innovation Can Create Economic Prosperity for All Americans.

The Mistress of Ceremonies and Panel Facilitator will be Benita Best-Wong, Deputy Assistant Administrator, Office of Water. Sign Language Interpreters will be present at the event. 	Hello EELC,
	This email contains an update on upcoming EELC calls and meetings. Given the limited amount of time to prepare for a March face-to-face meeting, we are rescheduling the March 6-7 in-person meeting. We would like to hold an EELC call instead on March 6 from 1:30 -3:00 pm ET. A meeting invite reflecting these changes will be sent out shortly by Henry Darwin's office.
	Dates currently being explored for the next EELC face-to-face meeting are in May or early June. We will get back to you with more information once we have more concrete information.
	Thank you for your patience and understanding as we work to identify a new date for the face-to-face meeting. Please let me know if you have any questions or if I can be of any assistance in the meantime.

ACOEL Interview with Deputy Administrator Darwin

Periodically, the ACOEL meets with/interviews those in decision-making positions within EPA and other government agencies. In this case, we would like to interview Deputy Administrator Darwin and conduct the interview by conference call so that members can listen in. The interview is intended to be an informal conversation and will not be recorded by the ACOEL.

In the interview format, questions about the EPA's Lean management, goals and process, as well as reorganization schedule and progress on implementation & also any related rulemaking will be conducted.

The ACOEL host, possibly immediate past President John Cruden and an additional ACOEL Fellow to assist. Mr Cruden will introduce Mr Darwin and conduct the interview.

Audience: Solely ACOEL members only (60-80 people)

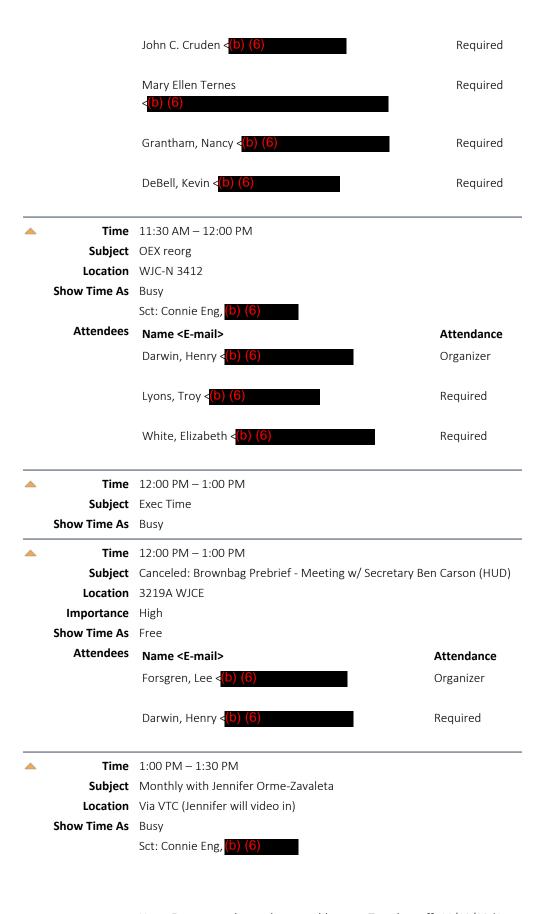

Open to press: No
